1 Assistance with choosing a location where to move to

1.1 1.1. Introduction

1.1.1 1.1.1 Main reason behind this project

I've spent past year living in Warsaw, Poland and in a couple of months I'll be moving to Prague, Czech Republic both because of a work. So I'm using this opportunity and making a project that will help me with picking up the right location where to move to. But I will make it so that it will also be useful for other people who would consider moving to Prague. There are many things to consider when you are relocating yourself. But basically it all leads to finding an area where real estate renting values are acceptable and at the same time you can find there all the right venues and easily accessible public transport.
